## **COVID-19** EXPOSURE CONTROL GUIDE

Safe operating procedures & return to work guidlines for Therma employees

SYMPTOMS / DIAGNOSIS	STAY AT HOME	RETURN TO WORK	
Fever (temp > 38°C/100°F)	STAY AT HOME	After at least 72 hours of no fever without the use of antipyretics (ie., fever reducing medications such as Motrin, Tylenol etc.) <b>AND</b> • Symptoms have significantly improved <b>AND</b> • Contact Mike FIsher at 408- 210-2300 prior to return to work	
<ul> <li>One or more of these symptoms without fever</li> <li>Cough</li> <li>Shortness of breath</li> <li>Sore throat</li> <li>Nasal congestion/runny nose</li> <li>Body aches</li> </ul>	<ul> <li>STAY AT HOME</li> <li>If these symptoms get better after 2 days call Mike Fisher at 408-210-2300 prior to return to work</li> <li>If these symptoms worsen after 2 days</li> <li>OR</li> <li>If you develop a fever, then continue to stay home &amp; contact Mike Fisher at 408- 210-2300</li> </ul>	<ul> <li>If able, work from home</li> <li>If able, attend meetings by phone/video</li> <li>If symptoms get better after 2 days &amp; you feel well enough to work, but have cough, cold or allergy symptoms wear a face mask to work after confirming your return to work with Mike Fisher at 408-210-2300</li> <li>Disinfect your hands after touching items others may have touched</li> <li>Do not shake hands with others</li> </ul>	
Diagnosis of COVID-19 Dated: 3/25/2020	Stay at home, self isolate & monitor your symptoms	<ul> <li>14 Days after onset of symptoms</li> <li>5 days after resolution of symptoms</li> <li>WHICHEVER IS LONGER OR</li> <li>If you develop a fever, then continue to stay home &amp; contact Mike Fisher at 408- 210-2300</li> </ul>	

# **COVID-19** FOREMAN ASSESSMENT SURVEY

Steps to mitigate the community spread

To mitigate the community spread of COVID - 19, supervisors are required to review the recommendations outlined below and complete the survey with their team each day before the start of work. Make sure your daily briefing is documented.

#### **Recommendations to Stop the Spread of Germs:**

- If you have a fever, cough, shortness of breath, sore throat, nasal congestion/runny nose, or body aches, you must stay home.
- See Stay at Home Guidelines for more details.
- Regularly wash hands with soap and water for at least 20 seconds.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Clean and disinfect frequently touched objects and surfaces.
- Practice social distancing (maintaining 6' distance from others).
- Avoid sharing personal items with coworkers (dishes, cups, utensils, towels, tools)
- Disinfect your workspace, tools and equipment daily

#### Questions for employees:

- 1. Do you have signs of fever or measured (100.4F or greater) fever, cough, shortness of breath, sore throat, nasal congestions/runny nose, or body aches?
- 2. Have you, or anyone that you have been in close contact with (within 6 feet for at least 5 minutes), been diagnosed with COVID-19?
- 3. Have you been issued a public health order to enforce isolation, quarantine or conditional release related to COVID-19?

#### **RESPONSES and ACTIONS:**

- 1. No to ALL questions, the worker(s) may begin and/or continue work.
- 2. YES to ANY question, the worker(s) is required to immediately leave the project and remain off work for the durations outlined in the Stay at Home Guidelines. (FEVER: Can return after a minimum 72 hours fever-free while not taking any fever reducing medications, AND symptoms significantly improved. SYMPTOMS without fever: Can return after a minimum 48 hours, AND symptoms significantly improved, AND no fever develops. Therma employees must call Mike Fisher prior to return to work).
- 3. YES to any question the supervisor must complete the Illness/Health Assessment Questionnaire and forward to Mike Fisher. (mfisher@therma.com)

<b>COVID-19</b> <b>ILLNESS/HEALTH ASSESSMENT QUESTIONNAIRE</b> Key questions to ask when assessing close contact exposure					
1. Are you experiencing any symptoms such as fever, cough or shortness of breath?					
Yes No Comment:					
<ul> <li>2. Have you been in close contact with anyone who has been diagnosed with COVID-19? CLOSE CONTACT is defined as:</li> <li>a. Being within approximately 6 feet (2 meters) of a COVID-19 case for a prolonged period of time: close contact can occur while caring for, living with, visiting, or sharing a healthcare waiting area or room with a COVID-19 case</li> </ul>					
-OR- b. Having direct contact with infectious secretions of a COVID-19 case (e.g. being coughed on)					
Yes No Comment:					
3. Have you had close contact* with anyone who may have COVID-19 but is yet to be confirmed?					
Yes No Comment:					
4. Are you currently in close contact with anyone, such as a family member, who is experiencing symptoms or has been confirmed as positive for COVID-19?					
Yes No Comment:					
5. Have you traveled internationally in the last 14 days?					
Yes No Comment:					
By signing below, I certify that all the information is true and correct to the best of my knowledge.

### THERMA PRE-TASK HAZARD PLAN

Project/Equipment/System Description:			Date:		Time:	
Foreman:		Phone:		Company:		
Building:	Floor:		Area:		Job #:	
Work Description:						

Task Specific Work Plans
Energized Electrical Work
<ul> <li>Hot work (nonelectrical)</li> <li>Building on test (smoke/sprinkler)</li> </ul>
Confined space
Critical lift (crane)
$\square$ Excavation
Floor/wall penetrations
Lock-out/Tag-out procedures
Line breaking
Equipment demo work plans
Required PPE
Hard hat Safety glasses
Face shield Goggles
Gloves: Leather Acid Solvent
Foot Protection: Boots Steel-toe
$\square$ Toe covers
Ear plugs / ear muffs
Safety vest
Chemical-resistant suit/apron
Respirator
Fall Protection
Ladder inspection completed
<ul> <li>Ladder inspection completed</li> <li>Retractable device required</li> </ul>
Ladder inspection completed
<ul> <li>Ladder inspection completed</li> <li>Retractable device required</li> <li>Inspected fall protection equipment</li> </ul>
<ul> <li>Ladder inspection completed</li> <li>Retractable device required</li> <li>Inspected fall protection equipment</li> <li>Shock absorbing lanyard required</li> <li>Horizontal lifeline system required</li> <li>Anchorage point identified</li> </ul>
<ul> <li>Ladder inspection completed</li> <li>Retractable device required</li> <li>Inspected fall protection equipment</li> <li>Shock absorbing lanyard required</li> <li>Horizontal lifeline system required</li> <li>Anchorage point identified</li> <li>Fall clearance distance adequate</li> </ul>

Hazards	Safe Plan of Action (SPA)
Slips, Trips, Falls	<ul> <li>Inspect for trip/slip hazards</li> <li>Area clean/clear of debris</li> <li>Hazards marked</li> <li>Tools &amp; material properly stored</li> <li>Electrical/emergency equipment clear</li> </ul>
Hand: Cut/Bump Hazards	<ul> <li>Inspected work area for sharp edges </li> <li>Found sharp edges and protected</li> <li>Inspected walking paths </li> <li>Identified hazards and marked as such</li> </ul>
Interruptions to Production	<ul> <li>Area inspected to identify EMO's (electrical connections, valves, pipes, tubing, fittings, gauges, fire sprinklers smoke detection, liquid leak detection, AMHS equipment)</li> <li>Protected, guarded or marked</li> </ul>
Hand & Power Tools	Reviewed safety requirements Inspected condition Guarding OK     GFCI in use Identified PPE required Inspected electrical cord     Routed cord overhead or taped/barricaded
Chemical Hazards	<ul> <li>Area inspected for potential chemical hazard MSDS available</li> <li>Identify PPE for highest recognized hazard (see left side)</li> <li>Reviewed decontamination/disposal or storage procedures</li> <li>Reviewed contingency plan and equipment is on hand</li> </ul>
Hazardous Energies	<ul> <li>Lock-out/tag-out/verify  Confirm that equipment is de-energized</li> <li>1lock/1key/1 person  Double block &amp; bleed</li> <li>Mechanical, electrical, chemical, thermal, stored, radiation</li> </ul>
Non-electrical Hot Work	☐ Fire extinguishers ☐ Fire watch ☐ Install weld/spark screens ☐ Combustible material removed/protected ☐ Adequate ventilation
Excavation	Reviewed as-builts/locates Barricades provided     Proper sloping/shoring Access/egress provided
USA Ticket #	<ul> <li>Excavation inspected by competent person</li> <li>Hand dig areas are clearly marked (within 3 feet of utilities)</li> </ul>
Scaffolds	<ul> <li>Competent person inspects daily</li> <li>Condition tags in place</li> <li>Properly secured/wheel locks</li> <li>Toe boards used</li> <li>Footings adequate</li> </ul>
Vehicular Traffic	☐ Traffic barricades ☐ Cones ☐ Flagmen ☐ Lane closure ☐ Fire lane is clear
Crane or other Lifting Equipment	<ul> <li>Lifting/rigging equipment inspected </li> <li>Tag lines in use</li> <li>Areas barricaded </li> <li>Overhead utility clearance verified</li> <li>Signalman assigned</li> </ul>
Barricades	<ul> <li>Yellow barricade tape</li> <li>Rigid barricade required/secured to floor</li> <li>Barricade signage</li> <li>Emergency egress pathways clearly marked</li> <li>Travel paths barricaded/cones to protect foot traffic</li> </ul>
Environmental	<ul> <li>Storm water protected Hazardous waste plan</li> <li>Ground protected from metal shavings Dumpsters covered</li> <li>Dust controls in place</li> </ul>
Weather	<ul> <li>Review plans for weather including heat/wind/moisture</li> <li>Liquids available Cool-down periods Sun-screen</li> <li>Heat stress symptoms</li> </ul>
Crew Congestion / Impact to Occupants	<ul> <li>Inspected areas for potential impacts to other crews/customers</li> <li>Coordinated with adjacent work supervisor/customer</li> </ul>

#### **JOB / TASK**

Major Steps of Task	Tools Required to do Job Safely	Recognized Hazard categories and additional hazards not captured on front page.	Additional safe plans for hazards

Eyewash/Shower Location:	Fire Extinguisher Location:
Phone Location:	

**Team Member Signatures:** 

Foreman Signature: \_\_\_\_\_

EHS (as needed)

Instructions: 1) Conduct a walk-through of work area, inspecting for hazards. 2) Write the steps of the task. 3) Note possible hazards involved in each step as well as contingencies. 4) In the Safe Plan column, provide the corrective actions that will be taken to mitigate the hazards. 5) List tools needed to do the job, additional safety equipment, etc.

Did conditions change? **STOP the job!** Identify control measures. Update the PTP. Communicate!
